

**Part (c)**

Replacing  $x$  with  $-x$  in the argument of  $f$  reflects the graph about the  $y$ -axis.

**Part (d)**

Replacing  $x$  with  $-x$  in the argument of  $f$  reflects the graph about the  $y$ -axis, and placing a minus sign in front of  $f$  reflects it a second time over the  $x$ -axis.
